First name :	Can you please describe in a few words how you will use SEX-ED + pedagogical tools :
Last name :	
Postal address :	
Phone :	
Employer (if relevant) :	
Email :	

SEX-ED + creates and distributes educational tools and sex education content that contribute to a better knowledge of genital anatomies and sexual responses. The project promotes a sex-positive attitude and a culture of consent.

Our values:

- Commitment** to the defense of the sexual and reproductive rights of all
- Respect** for the diversity of bodies, genders, sexualities and experiences
- Innovation** through the realization of new tools developed in connection with the needs of professionals.
- Collaboration** with academic circles, medical teams, non-profit organizations, activists, etc.
- Creativity** by diverting film special effects techniques applied to the realization of tools molded on human
- Adaptability** Products are designed to be used in a variety of contexts and can be customized as needed.

To know more about our politics (environment, worker's rights, pricing, etc.) please go to <http://positivesexed.org/en/faq-3/>

SEX-ED + is an innovative and unique project, but on a human scale. Actually, there is only one passionate and really determined human behind all of this. If you do not receive an answer, please check your spam box as some servers block emails containing the word "sex". We ALWAYS answer your email.

I would like to obtain a quote for the purchase of:

- plastic clitoris , based on the 3D file created by Odile Fillod and Philippe Cosentino
- silicone clitoris, based on the 3D file created by Odile Fillod and Philippe Cosentino
- silicone vulva with see through silicone clitoris, molded on a cis-dyadic human (best when the object is heavily manipulated, like in a school context)
- silicone vulva with removable plastic clitoris, molded on a cis-dyadic human
- kit of five plastic vulvae, molded on humans w/o surgery or hormonal intake
- silicone vulva molded on a trans woman who has had a vaginoplasty
- silicone vulva molded on a human who has been on a testosterone regimen for several year
- silicone penis kit (with and without erection-2) medium size, uncircumcised, molded on a cis-dyadic human
- silicone penis kit showing erection mechanisms (3), medium size, uncircumcised, molded on cis-dyadic human
- circumcision kit comprised of 2 silicone flaccid penis, molded on cis-dyadic humans, one of them circumcised
- circumcision kit comprised of 2 silicone flaccid penis and 2 silicone erect penis, molded on cis-dyadic humans, one of them circumcised
- I have a special request, please contact me
